2017-2018 Wishlist Results

Below are the top 15 results from this year's formal wishlist process. We greatly appreciate those who have participated. Your feedback over the years has helped to make EPICS the world's most popular extrusion software. We are already hard at work on several items in the top 10 to be released in near-future updates.

5/31/2017		2017-2018 EPICS Wishlist
		As voted by 997 of 2663 EPICS licencees
Rank	Score	Item
1	100	Validated user fields: Allow creation of user-defined lists of allowable data values to be linked to any user field
2	77	Allow selection of any field as a required field
3	74	When changing the status of an item to "H" (complete), alert/stop the user if there are active racks or tickets in process for that item (with password override)
4	72	Add a die repair/die correction module. [If possible, please include a summary of your ideas/needs with your ballot.]
5	67	Include manual changes to rack contents in the sales order change log
6	66	When adding to a rack from extrusion allow simultaneous emptying of existing contents
7	66	When posting press production, make sure that the alloy and alloy type of the specified cast number matches the alloy and alloy type of the selected billet
8	61	Alert the user if there are open corrective action items against a die when entering a new order for that die or when scheduling the die for production
9	56	Support multi-column sorting on schedule screen (e.g. sort first by die, then alloy, etc.)
10	56	Make user fields required/not required by customer
11	53	of that customer's dies and/or parts to be made inactive as well
12	53	Allow Fill from Stock screen to locate matching stock using either the part number alone or the die/alloy/length/finish combination
14	51	When copying an existing part to create a new part, copy all notes and alerts from the old part to the new part as well
15	50	When items are rescheduled, add an entry to the item's change log

While the top 15 items do take priority, we look at all items on the current wishlist as well as uncompleted items from previous years when planning development.

Whenever we release an update, wishlist items are indicated in the revision text with an asterisk *. Keep an eye out for updates including wishlist items very soon!

Die Maintenance Module Feedback

The number 4 wishlist item for 2017-2018 is to provide a die correction/repair module. We have already received some very valuable feedback from several of our customers. However, in order to provide you with a feature that meets your needs and functions as you would expect, **we need your input!**

What functionality would you like to see in a die correction/repair module? Specific examples would help us out tremendously. **Please send your thoughts to info@foyinc.com.**

EUC Moving to May

We are all set to have EUC 2018 in Las Vegas! It will be held at the New York New York Hotel in Las Vegas, Nevada! The conference dates are April 15th – 18th.

You can already book your rooms with [this link](#) and choose "Attendee" from the drop down list OR you can call Central Reservations at **1-800-693-6763** and refer to the group's name, "Foy, Inc. EPICS User Conference 2018" or group block code **SFOY0418NY**.

As we look to **EUC 2019** and beyond, we are considering **moving the dates back to sometime in May** so that we can better enjoy the warmth at our future destinations. What do you think? Tell us at info@foyinc.com

EPICS Training Opportunities

Be sure to have your EPICS Administrator and key users trained thoroughly on EPICS V9.

EPICS classroom training sessions are held at the Foy Inc offices in Farmersville, Texas. The next available V9 classes are scheduled for **July 10-13**, and **August 14-17**. You can always view training class availability and cost information on our [Training Classes](#) webpage.

If you are interested in a two-day Reports training class working with the EPICS database, please let us know by calling 972-782-7282 or emailing us at info@foyinc.com. We schedule the Reports classes on demand.

EPICS Customer List

*On any given day
EPICS is helping over 15,000 people
at 100 extrusion plants around the world.*
