## EPICS 10 Wishlist Features

The release of EPICS 10 added many Wishlist features to EPICS. These added features were suggested by our customers. A full list of EPICS 10 features can be found on [our website](#).

**EPICS 10.1 2026 WL#1** – Add an option to send notifications whenever a scheduled die is marked inactive

**EPICS 10.1 2026 WL#3** – Allow notifications when any item is placed on or off plant or credit hold

**EPICS 10.1 2026 WL#4** – On the Press Schedule screen, highlight dies on the Unscheduled Workorders grid that are currently scheduled for any press, date, and shift using the Customize Appearance utility

**EPICS 10.1 2026 WL#5** – Allow notifications to customer service when the production for any item in any department exceeds the item's shipping tolerance

**EPICS 10.1 2026 WL#6** – On the Sales Orders screen, show an alert when looking at a SO Item if there is weight remaining to extrude and all die copies are inactive, or if the selected die copy is inactive

**EPICS 10.1 2026 WL#8** – Add a Comment field for Scrap & Rework lines entered during production posting

**EPICS 10.1 2026 WL#14** – Add Field Choosers to the History tabs of the Die and Die Copies screens

2024 WL#7 – Add SetupMinutes to Machine and PartDept tables and use them to calculate capacity and backlog hours

2023 WL#3 – New Die Groups allow any number of dies to be grouped together for simplified notes, alerts, and production specs. Each die can be a member of any number of groups as needed.

2024 WL #5 and 2019 WL#7 – Allow each die to have different extrusion specs (butt, end scrap, tooling) for each press, container, alloy, and copy

2025 WL#18 – Add a "Leadout Scrap" setting to die copies to specify that the first N feet (or meters) of runout from a press run must be scrapped.

2025 WL#11 – Support multi-billet practices where the weld must be removed, and store the amount of weld scrap required for each die copy

## EPICS 10 Wishlist Features

2024 WL#23 – Unlimited drawings can be linked to each die and part

2020 WL#15 – Add Shipping Alerts to Notes and Alerts

2020 WL#8: Create a duplicate of each status O ticket as it is created. This allows outside processor manifests to be reprinted at any time and allows for the creation of detailed history reports for shipments to outside processors. These duplicate tickets are status \* and contain the original TicketNum in their origTicketNum column.

2020 WL#8: Create a duplicate of each status O ticket as it is created. This allows outside processor manifests to be reprinted at any time and allows for the creation of detailed history reports for shipments to outside processors. These duplicate tickets are status \* and contain the original TicketNum in their origTicketNum column.

2025 WL #13 – Add a change log to the plant calendar (new MachineCalChangeLog table)

2025 WL#4 – Add a Preferred Press column (Pref\_Press) to the Press Schedule screen and a Preferred Machine column (Pref\_Mchn) to the Department Schedule screen

2025 WL#6 – Allow packed tickets to be added to an interplant transfer without having to add them to a rack first

2025 WL#1: On the fill from stock screen, display the total pieces needed to complete the item, the item's shipping tolerance, and the total number of pieces in available Stock bundles

2022 WL#27 – More field choosers throughout EPICS

- Scan for Racks tab of frmBacklog
- Scan for Racks tab of frmLscale
- Scan for Racks tab of frmShiftProd
- Credit Hold Review screen
- Credit Release Review screen
- Plant Hold Review screen
- Plant Hold Release Review screen
- Clear Racks tab of frmRack
- Fill Entire Sales Order tab on Fill from Stock screen
- Ticket grid of frmManif
- Ship Tickets and Pending Shipments grids of frmShip
- Ticket grid of frmOutsideProcessor
- Post Sales Orders screen
- Review tab of Adjust SO Prices, Quote Prices, and Pricing Module Prices screen

## EPICS Module of the Month

Did you know that there are 14 different EPICS Modules? Each module is designed with our customers in mind and many were created based on customer feedback.

The Module of the Month for August is the Quality Check Module. The Quality Check Module is an optional addition to your EPICS license.

Released with EPICS V9.16, the Quality Check Module allows you to collect quality-related data at any stage of production. Collect detailed measurements specific to a customer part or die or collect simple measurements for every lot or rack.

Gather the data you need using Quality Layouts you create. Layouts can be assigned to departments, machines, parts, and dies.

If you would like an overview of this module, you can view details in our help docs or watch the [overview video](#) we created.

## Foy's EPICS Events

### EPICS User Conference 2027

April 18-21, 2027

**MARGARITAVILLE®**  
*Beach Resort*  
HOLLYWOOD BEACH, FL

Reserve your room today!

or scan ->

### EPICS Customer List

On any given day EPICS is helping more than 15,000 people at over 100 extrusion plants on more than 250 presses in 14 countries around the world.

EPICS development is user-driven and continually enhanced by the ideas of its experienced and innovative users. [See the list of EPICS customers here.](#)

Fourteenth International  
Aluminum Extrusion  
Technology Seminar  
& Exposition

**ET27.us**

*The World's Foremost  
Aluminum Extrusion  
Technology Event*

**April 26 – 30, 2027**

Rosen Shingle Creek  
Orlando, Florida USA

**SAVE  
THE DATE**

**Technical Sessions • ET Expo • Add-On Workshops • nETworking**

### ET '27 Registration is open!

Are you planning to attend the Fourteenth International Aluminum Extrusion Technology Seminar & Exposition? Come attend EPICS User Conference 2027 the week before and enjoy the conference rate at the Margaritaville Beach Resort in Hollywood Beach, FL through April 24, 2027 before making your way up to Orlando for [ET '27](#).

### Important 2027 Dates

#### **April 14-24, 2027**

Conference Rate at Margaritaville Beach Resort  
Hollywood Beach, Florida

#### **April 18-21, 2027**

EPICS User Conference 2027  
Hollywood Beach, Florida

#### **April 26-30, 2027**

Aluminum Extrusion Technology Seminar & Exposition  
Orlando, Florida

## Foy's EPICS Events

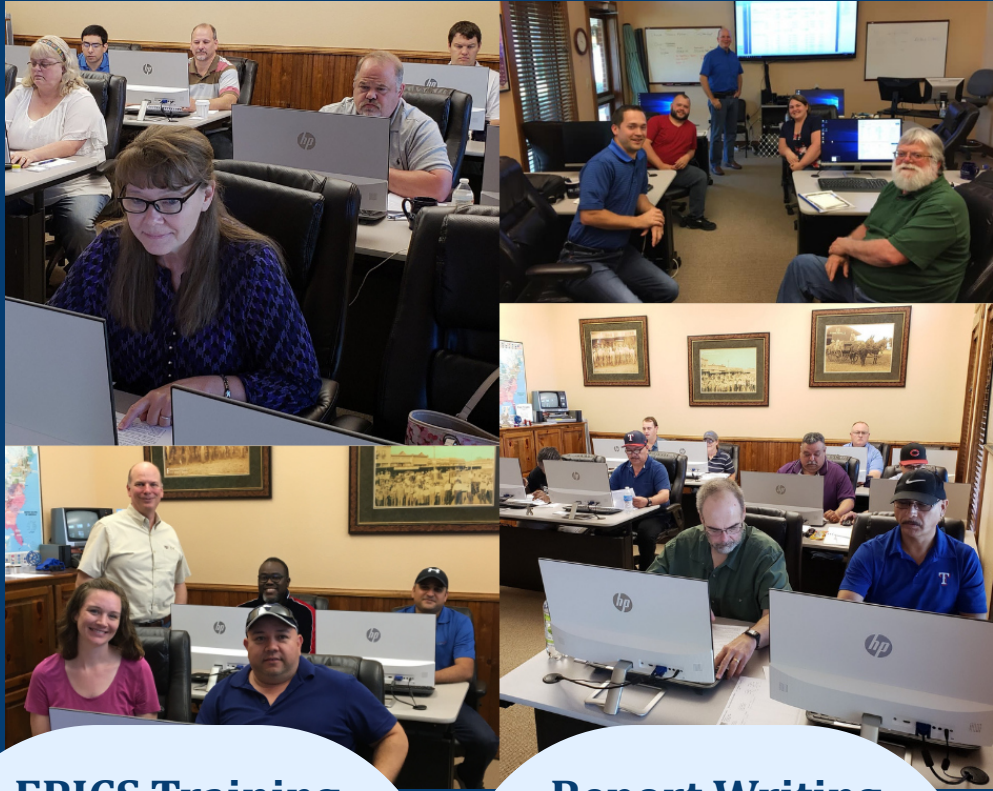

### Train with Foy Inc

#### EPICS User Training

A comprehensive course for EPICS user and administrators. This is a hands-on class where students will see and use all EPICS features.

#### Report Writing Training

This two-day course is for beginning report writers where participants learn the essentials of report writing with Crystal Reports and how to work with commonly used EPICS database tables.

#### EPICS Training

Online Dates

August 24-27, 2026  
October 18-22, 2026  
January 25-28, 2027

#### EPICS Training

In-Person Dates

February 22-25, 2027

#### Report Writing

Classes are scheduled on demand. Please contact us to schedule a class.

### Additional Details

For online classes, a good internet connection and dual monitors are essential. One monitor is needed for watching the instructor's screen and another for running EPICS. Trainees will connect via VPN to a training database on a Foy Inc server.

A new benefit has been added to the Software Service Policy (SSP). Companies with EPICS Enterprise edition (16 or more user licenses) can send one employee to EPICS user training annually for free. Class size is limited for paid and free trainees, so we recommend registering early for the training classes.

If you are interested in any training opportunities, please call us at 972-782-7282 or email us at [info@foyinc.com](mailto:info@foyinc.com).
