## Who should come to the 2027 EPICS User Conference (EUC)?

- Administrators
- BI Manager
- Customer Service
- Die Maintenance
- Finishers
- Fabricators
- Inventory and Pricing Managers
- IT Managers
- Planners and Schedulers
- Production Managers
- Quality Assurance
- Shipping and Receiving
- Supervisors

**If you use EPICS, this is YOUR conference!**

## Where is EUC 2027?

Nestled between the Atlantic Ocean and Intercoastal Waterway, Margaritaville Beach Resort is one of the top Hollywood, Florida hotels for relaxation and adventure, and the EPICS User Conference! It's an amazing location.

**Special EUC rate is $299 per night.**
This year you have the option of staying longer at that discounted rate. The conference rate is available April 14 – 24, several days before and after the conference.

## Optional Training Day

Join us for a live EPICS demonstration on Wednesday, April 21, 2027! The Foy Team will be hands-on in EPICS showing off EPICS 10 features and answering questions you may have.

Conference attendees who stay for this special additional day tell us it is well worth it. We get great feedback on this every year, so plan to stay one more day in Hollywood Beach. We've been told that the ocean is always bluer on Wednesdays. Weird.

## EPICS Module of the Month

Did you know that there are 14 different EPICS Modules? Each module is designed with our customers in mind and many were created based on customer feedback.

The Module of the Month for November is the Capacity Planning Module. Capacity Planning may have been the module of the month for October as well, but this month we are focusing on Capacity Planning at Order Entry. The Capacity Planning Module is an optional addition to your EPICS license.

The Capacity Planning Module provides a real-time view of available capacity in any production department. It also gives order entry personnel a much more realistic estimate of delivery dates for new orders based on production requirements for each new item.

If you would like an overview of this module, you can view details in our help docs or watch the overview video we created. For details about Capacity Planning at Order Entry, check out this month's video.

## EPICS 10 Update - Eliminates 'Out of Memory' Errors

EPICS 10.1.0.5, released November 6, contains a fix for the Crystal Reports memory leak reported by several customers. If your users have been experiencing 'out of memory' errors in EPICS, please update to the latest version at your earliest convenience and set the gUseExternalViewer configuration setting to YES.

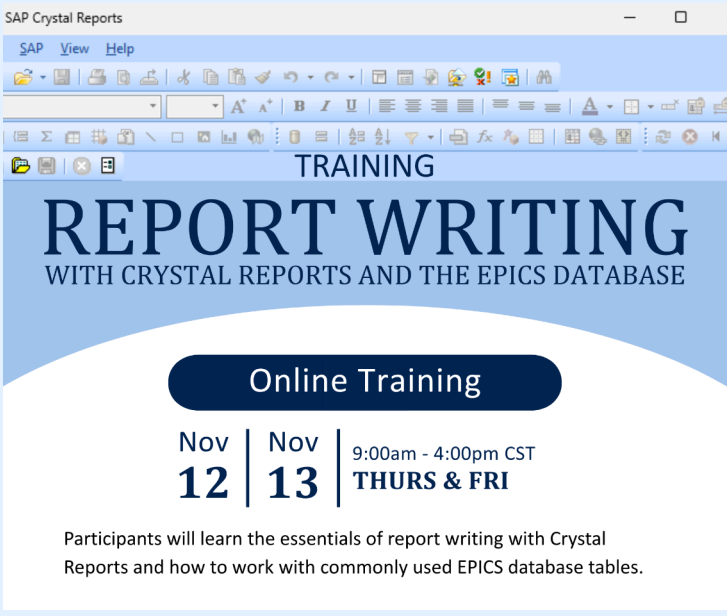

Features in this update include:

- New config setting gUseExternalViewer: Option to seamlessly run Crystal reports using an external viewer app to eliminate memory leaks
- Allow a rack containing multiple lots for the same sales order item to be added to a production posting
- When packing kits or assemblies, validate the bundle weight using the part's "Total Weight of Assembly" value

Full details regarding this update can be found on the Update Descriptions page of our website.

## Report Writing Training Opportunity

**Foy Inc is offering an Online Report Writing Training Class November 12-13.** Participants will learn the essentials of report writing with Crystal Reports and how to work with commonly used EPICS database tables. This training is ideal for employees new to report writing with Crystal Reports or anyone who may need a refresher.

The class will meet online via Zoom from 9am-4pm CST. **More details and pricing can be found on the Classroom Training page of our website.**

If you are interested in registering yourself or anyone at your company for this training session, please send us an email with details for your participants: info@foyinc.com. Space is limited.

# Foy's EPICS Events

## Module Videos

As you have likely seen in other EPICS Newsletters, we are working to create videos for each of our available modules. Four such videos are currently available and can be found in our Help Docs at the bottom of the Overview pages for:

- Corrective Action
- Quality Check
- Report Scheduler
- Quotation
- Capacity Planning
- Capacity Planning at Order Entry

## EPICS Price Increase for 2027

Effective January 1, 2027, the price of all EPICS modules and licenses will increase by 4%. This increase will also be reflected in EPICS Software Service Policy renewals due after January 1. Please let us know if you have any questions or would like a quote for any added modules or licenses for purchase before December 31, 2026, at the current prices.

## Foy Inc Holiday Schedule

Please be aware that Foy Inc will be closed November 26-27, 2026 for American Thanksgiving and December 24, 2026 through January 1, 2027 for winter holidays. We will be monitoring the Help Desk for emergencies. Please send emails to help@foyinc.com.

# Foy's EPICS Events

## Foy Inc at Live! 360 Tech Con

John and Scott will be attending Live! 360 in Orlando, FL from November 15-20.

If you happen to be in attendance and see one of us, please say, "hello!"

## EPICS Customer List

On any given day EPICS is helping more than 15,000 people at over 100 extrusion plants on more than 250 presses in 14 countries around the world.

EPICS development is user-driven and continually enhanced by the ideas of its experienced and innovative users. See the list of EPICS customers here.

## ET '27 Registration is open!

Are you planning to attend the Fourteenth International Aluminum Extrusion Technology Seminar & Exposition? Come attend EPICS User Conference 2027 the week before and enjoy the conference rate at the Margaritaville Beach Resort in Hollywood Beach, FL through April 24, 2027 before making your way up to Orlando for ET '27.

## Train with Foy Inc

### EPICS User Training

A comprehensive course for EPICS user and administrators. This is a hands-on class where students will see and use all EPICS features.

### Report Writing Training

This two-day course is for beginning report writers where participants learn the essentials of report writing with Crystal Reports and how to work with commonly used EPICS database tables.

**EPICS Training**
Online Dates

January 25-28, 2027
March 15-18, 2027

**EPICS Training**
In-Person Dates

February 22-25, 2027

**Report Writing**
Online Dates

November 12-13, 2026

## Additional Details

For online classes, a good internet connection and dual monitors are essential. One monitor is needed for watching the instructor's screen and another for running EPICS. Trainees will connect via VPN to a training database on a Foy Inc server.

A new benefit has been added to the Software Service Policy (SSP). Companies with EPICS Enterprise edition (16 or more user licenses) can send one employee to EPICS user training annually for free. Class size is limited for paid and free trainees, so we recommend registering early for the training classes.

If you are interested in any training opportunities, please call us at 972-782-7282 or email us at info@foyinc.com.
